Credits: .50 per semester or 1.0 per full year

## Courses Available

### Introduction to Automotive (Auto 1):

This course concentrates on the maintenance portion of the industry. Students will use and operate the major tools and equipment used by today's master auto techs.

### Automotive MLR\* Chassis (Auto 2):

This full-year class is for students interested in working in automotive maintenance, design and/or engineering industries. Areas include brakes, steering, suspension, transmissions, and their related computer-controlled systems.

### Automotive MLR\* Engines (Auto 3):

\*MLR - Maintenance & Light Repair

\*\*CE - Concurrent Enrollment

This course focuses on engines, engine performance, electrical and the HVAC systems in today's vehicles. (2-period block)

### CE\*\* Maintenance & Light Repair Fundamentals (AUTO1010): (11-12 grades)

This six-credit college course builds on the concepts from the earlier courses. For students interested in a post-secondary automotive education. Not available at all schools (2-period block)

## Requirements

- Learn & use safety skills
- Develop a good work ethic
- Complete projects
