

College and Career Awareness

Career & Technical Education Website: www.graniteschools.org/cte

Course Information

Location: Check with your Counselor
Offered to: 7th graders

Credits: 1
Length: Year

Course Description

College and Career Awareness offers exploration and preparation in college and career pathways focusing on jobs that are high skill and high demand, as well as satisfying and financially rewarding. It helps students identify their interests, abilities, and skills. With appropriate developmental information related to careers, educational pathways, and self-knowledge, students are able to begin to make college and career goals for the future. Students will become acquainted with the Utah labor market and the employment opportunities for which they can prepare by defining a College and Career Ready Plan.

Topics Include:

- Agriculture
- Business and Marketing
- Family and Consumer Sciences
- Health Science
- Information Technology
- Skilled and Technical Sciences
- Technology and Engineering

Our Vision

Our vision is to offer every student the opportunity to experience technology used in the workplace, develop beginning life skills, and explore careers that will assist him or her in eventually choosing a career, while giving each student the encouragement to achieve his or her goals.

College and career Awareness lessons connect to science technology, engineering, and math (STEM). Every career a student explores and every activity in which a student participates links to career opportunities in STEM.
