Course Description

Everything you wanted to know about children and more! Child development is designed for students to learn and understand the aspects of human growth and development from conception through early childhood. This class is a great foundation course for early childhood-related careers, elementary school teachers, social work, human development careers, and for your future family.

Topics Include:

- Parenting readiness
- Prenatal care
- Pregnancy
- Childbirth
- Birth defects
- Growth and development of infants
- Growth and development of toddlers
- Growth and development of preschoolers
- Guidance techniques
