

Article IX.A.2.b. Medical Examinations and Reports

A. Statement of Policy

Employees who are required to provide medical condition reports to maintain job requirements will do so in accordance with required reports.

The District may require health information or medical examinations at any time. When the District requires another examination, the employee shall go to the clinic or physician designated by the Board, and the Board shall pay the cost of the examination.

Exception: Bus drivers who desire to have their own personal doctor conduct their required two-year medical examination may do so every other examination. Bus drivers using their own doctor for the exam will be reimbursed by the District, amount to be determined in negotiations.

Granite School District will comply with all applicable State and Federal regulations regarding physical examinations for classified employees who are assigned to work with hazardous materials.
