Article IX.A.5.c.  Transfer of Administrators

A.  Statement of Policy

The transfer of administrative staff, with Board approval, will be under the direction of the superintendent or designee. Before a transfer decision is finalized, it will be discussed with the administrator involved. Other interested parties (such as the principal over an assistant principal being transferred) should also be consulted.

In the event that the administrator objects to the transfer, the superintendent or his designee will meet with the administrator and a GASA representative to discuss the matter. Administrative appointments will normally be completed by the second Board meeting in April each year.
