

Apple Hardware

Apple Computer

Do you need to order any Apple hardware? iPads, iPods, Mac?

We use the State of Utah contract with Apple and order directly from them.

It's easy to find what you are looking for and to get pricing. Just go to <http://store.apple.com/us-k12> for current contract pricing. Note; it's important to enter the complete URL address *exactly* as listed above. If you go to apple.com you will be looking at all the same products but the pricing shown will be retail prices, not state contract pricing. I recommend you bookmark this link.

Anything ordered using this contract will be shipped to you at no additional cost as all prices include freight.

FYI, if you are submitting a Requisition, the vendor number for Apple is 004644.

[Here is the info you will need if ordering Apple Apps](#)

Thank you for saving district funds!

If you have questions about this contract you can contact:

Dean A. Pope
Granite School District
Purchasing Department
