## 2021-2022 Junior High School Fee Schedule

### Fee Amounts and Spend Plans
- All fees listed on this schedule are the maximum amounts approved by the Board of Education that a school may charge per pupil for participation in the named activity.
- The types of expenditures funded with student fees include ancillary personnel costs, educational services, employee training, professional services, technical services, student travel, advertising services, printing services, activity and student supplies, student food, technology supplies, equipment and facility enhancements, and club dues. Planned expenditures vary by program and school due to the unique needs and specific plans made at each school.
- Prior to registration, the fee amounts and associated spend plans approved by the principal for each program at each school are published online at schoolfees.graniteschools.org. Parents are encouraged to refer to their school's fee schedule for detailed fee and spend plan information. For school activities that involve tryouts, participants must be selected before fees are assessed.

- Pursuant to Utah Code 53G-6-704 and Utah Admin. Code R277-494, all home school, private school, and charter school students who participate in extracurricular activities must pay the applicable activity-specific fee(s) from above. For students who attend a charter school and participate in extracurricular activities, the charter school of enrollment must also pay a one-time annual school participation fee of $49.00 to the school where the student is participating in the activity. Such students are not subject to the basic registration fee.
