RE: Amended Request for Avaya Telephone
System Support from June 14, 2016
Requisition 650180
\$179,236.64

Dear Dr. Bates:

The Board approved the purchase of hardware and software support for the district's Avaya telephone system at their June 14, 2016 meeting. After the approval an error was discovered that requires the Board to approve a corrected amount.

The Board approved an amount of \$97,337.14 in June, but a line item was errantly left from the calculation which increases the purchase amount to \$179,236.64.

The support contract expired on June 30, 2016 prior to this board meeting. In order to ensure system continuity, a determination was made to issue the purchase order for the correct amount to extend the contract. Ratification of this action is requested at this time from the Board.

Sincerely,

Jared Gardner
Director of Purchasing

RE: Contracted Services for Special
Education Parent Training &
Information Center
Requisition No. 650242
\$54,068.00

Dear Dr. Bates:

The above listed requisition was submitted to the Purchasing Department over the signatures of Ms. Noelle Converse and Ms. Linda Mariotti. This request is for contracted services for special education parent training and information center.

These services are provided by The Utah Parent Center which is the parent organization established by the USOE as a neutral parent consultation center as required by the Individuals with Disabilities Education Act.

The Utah Parent Center is the State's only designated Parent Training and Information Center funded by the federal Office of Special Education Programs (#H328M150034) to support Utah parents of children and youth with disabilities. This requires the UPC to collaborate with the Utah State Office of Education, Special Education Section and local agencies providing access the state to ensure meaningful parent involvement as essential participants in planning to meet the needs of their family members within the school system. As Utah's only PTI, the Utah State Office of Education and local education agencies serving children in special education programs are to partner with the UPC to ensure meaningful parent involvement.

We respectfully request approval to issue a purchase order to The Utah Parent Center for \$54,068.00. Funds for this expenditure are to come from the Special Education IDEA-B Disabled Federal budget.

Sincerely,

RE: Student Behavior Data Management and
Reporting Software
\$64,914.00

Dear Dr. Bates:

The Purchasing Department received a request to issue a request for proposals (RFP) for software that would assist our schools with managing and reporting student behaviors. The intent of the RFP would be to provide a common platform that would be utilized across the district. Up to this point schools had been self-selecting tools which lead to inefficiencies. The evaluation committee has identified the following list of benefits that will be derived from the new software.

- Informs *which behaviors need to be reported and corrected/retaught*
- *Transfer of data* if students move between schools in our district
- Consistent tracking of minor behavior and consistency with behavior codes
- Provides clear *action steps, interventions, and consequences* for behavior
- If student behaviors rise to major infractions that must be reported in *Discovery*, the antecedents to those major behaviors are now documented as well.
- Improves *communication and consistency* between teachers **and** between teachers and the office
- Assists with *follow through* from the office
- *The District will pay* for the license, rather than the burden falling upon each school
- School Safety, Student Placement, Ed Equity, Special Ed, and other district departments will have read-only access to behavior data. This will provide both school-level and district-level reports to allow the district MTSS team to problem solve using consistent data. It will also provide instant access to student behavior incidents should an emergency arise in the district.
- Having consistent behavior data allows schools to problem solve, reduce office referrals, and provide targeted support for students in need of reteaching, counseling, or other interventions.

The Purchasing Department conducted the RFP process and the scoring results follow:

<u>Vendors</u>	<u>Score</u>
EducatorsHandbook.com	400.1
Offeror #2	369.1
Offeror #3	343.1
Offeror #4	216.7

Permission is requested enter into a contract with EducatorsHandbook.com for their proposed software. The initial term of the contract is three years with two one year options for renewal. The contract cost for the initial term will be \$194,742.00. A purchase order will be issued annually for \$64,914.00 for the licensing for that school year. Funds for this contract will be provided from the SCALE-UP grant.

Sincerely,

Jared Gardner
Director of Purchasing
