- Well organized
    - Schedule logistics
    - Information delivery
    - Lunch lines

- Keynote selection

- Relevant presenters

- Lunch quality

WHAT COULD HAVE BEEN DONE BETTER?

- One less day and provide time for school level collaboration, reflection, and implementation discussion

- Parking at Granger location – location attendance balance

- More sessions specific to certain positions (ex: Psych/Social Worker)

- Increase APP functionality to sort sessions in specific ways

RECOMMENDATIONS

- Hold a 2 day conference during the week teachers are back with the third day back as schools for school level professional learning including collaboration, reflection and implementation of what was learned at the conference.

- Continue with the objectives –
  - Participants will gain a deeper understanding and practical application of the Granite Way.
  - Participants will determine and attend professional learning they feel best meets their needs.

- Continue with a real time selection model rather than a pre-registration model but work to improve attendee balance at locations and in sessions.

- Work to increase functionality of website and APP for enhanced delivery of information.
