Martin W. Bates, Superintendent
Granite School District
2500 S. State Street
Salt Lake City, UT 84115

Dear Dr. Bates:

Recently the Utah Department of Transportation completed the construction of a new roadway on the Hunter High School campus. The road travels from the west to the east and merges into the current driveway (traveling north to south) on the west side of the Hunter High campus. Students from the west will drive or walk to the school on this street which will be called Wolverine Way. The western section of this road (the western property line to the roundabout) will be maintained by West Valley City and the eastern part will be maintained by Granite School District.

It is proposed that Granite School District sell 6,556 square feet (the western section) of this road to UDOT for \$51,151.00. The Granite School District Real Estate Committee recommends that the Board of Education approve this transaction.

David F. Garrett
