

Report from Davis Demographics

Forecast Calculations

Forecast

- Calculated for each of the district's 1,109 Study Areas
- Based upon student data October 2019/20 and historical student data (2016-2018)
- Based upon student <u>residence</u> rather than current school of enrollment
- Graduate 12th grade; Move up other grades

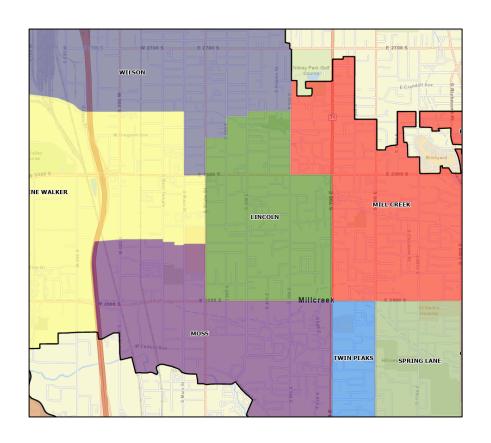

Factors Influencing Future Student Population

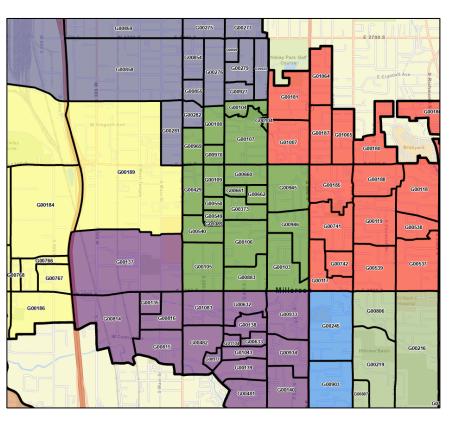

- Future Kindergarten Enrollment / Birth Rates
 - · Future K enrollment is based upon ratio of current K enrollment and area births
- New Housing
 - Residential development researched and included in the report
 - Future students calculated based upon occupancy and a student yield factor
- Families Moving In or Out of the District (mobility)
 - Tracks students moving in and out of district by grade
 - Three-year average of student migration pattern
 - Applied district wide
 - Biggest influence on forecast

Example of Study Areas

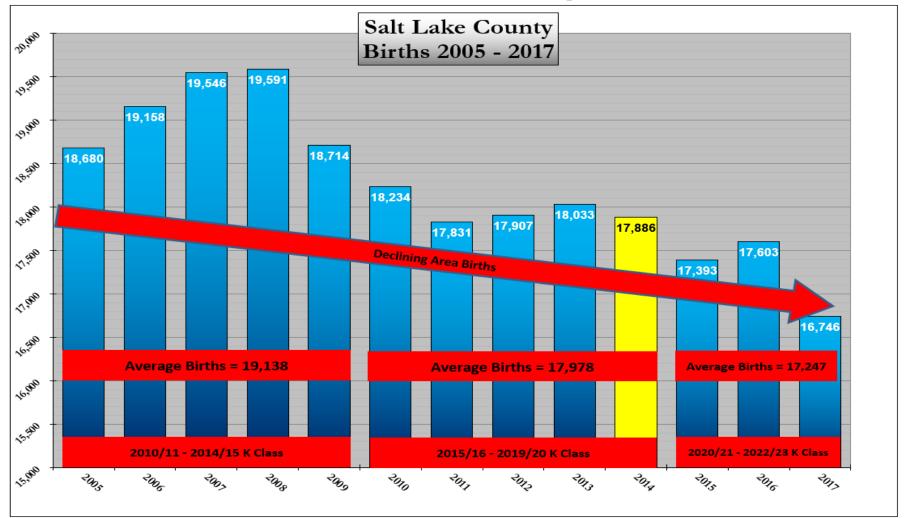

Attendance Areas

Study Areas

Future Resident Kindergarten

Comparing 2005-09, 2010-14 and 2015-17

Families Moving In or Out of the District (mobility)

Mobility is used to estimate future student retention patterns

- Tracks students moving in and out of district by grade
- Three-year average of student migration pattern
- Applied district wide
- Biggest influence on forecast

Areas with a mobility above 100% are experiencing a positive retention pattern

K-12	Total	Yearly Avg		
Students	1,656	331		

5-Year Forecast

Next Steps?

- PAC continues to consult with Davis Demographics to refine data
- In early 2021 Davis Demographics will present best thinking on what enrollment trends suggest regarding potential boundary and facility adjustments
