Consolidated Engineering Laboratories has provided the geotechnical services for the site and the determination has been made that their services are essential to maintain project continuity given the complexity of the site. Their professional services are available to the district under an approved list of engineers maintained by the State of Utah.

As directed by Mr. Donald Adams a purchase order was issued to Consolidated Engineering Laboratories for \$66,217.50 to maintain critical construction timelines. We respectfully request ratification of this action. Funds for this expenditure are to come from the Capital Outlay Budget.
