End of Year Activities  
High School Edition  
Spring 2021

High schools will be allowed to hold three after school activities that are not co-curricular or extra-curricular in nature where COVID testing will be required for participants. These may include dances, graduation activities, etc.

School Dances and other Activities:

1. All student participants must provide one of the following to enter the event:
   a. Proof of a negative COVID-19 test result
      i. The test must be conducted within 48 hours prior to the event. **The day before the event, testing will occur at the school site.**
      ii. Participants may test at the school site or at an alternate site (such as the Maverick Center, doctor’s office, etc.).
      iii. Participants must bring a copy of the results to enter the event.
   b. Proof of COVID-19 vaccination
      i. They must bring a copy of their immunization card or USIIS report
      ii. They must have received their second dose.
      iii. It must be at least two weeks since receiving their second dose.
   c. Proof of a positive COVID-19 test result within the 90 days prior to the event

2. Masks are required at all activities and must be worn properly at all times.

3. Outside venues may be utilized. It is suggested that venues be large enough to allow for some social distancing.

4. Chaperones provide one of the following to enter the event:
   a. Proof of a negative COVID-19 test result
      i. The test must be conducted within 48 hours prior to the event. **The day before the event, testing will occur at the school site.**
      ii. Participants may test at the school site or at an alternate site (such as the Maverick Center, doctor’s office, etc.).
      iii. Participants must bring a copy of the results to enter the event.
   b. Proof of COVID-19 vaccination
      i. They must bring a copy of their immunization card or USIIS report
      ii. They must have received their second dose.
      iii. It must be at least two weeks since receiving their second dose.
   c. Proof of a positive COVID-19 test result within the 90 days prior to the event.

5. Pictures are allowed at each of these activities. Students will be allowed to briefly remove their masks for pictures if they choose but they must be replaced immediately following.

6. Food and water may be allowed but must be individually wrapped and in single-serve size. Tables are allowed and food should not leave the serving area. Masks may be removed while actively eating but must be replaced when not eating or drinking. Seating may be limited to encourage social distancing.

7. DJs are required to wear a mask and will be allowed to test at the school if they so choose prior to the event.

8. Schools cannot charge participants for the cost of the COVID tests. They are supplied by the district. This means all activities must be approved by their leadership and improvement director two weeks prior to the event date. This allows for test planning and distribution of test materials.
Awards Programs and Parent Nights:

1. Masks are required at all activities and must be worn properly at all times.
2. Teams and programs may have awards nights with parents invited, but food may not be served. The venue size should allow for social distancing and a maximum of 25% capacity.
3. Teams and programs may have awards banquets where food is served, but they must be held within the two-week window of testing and ONLY the student and advisors/coaches may attend.
4. A Senior Awards Program would be allowed following the afore mentioned guidelines.
5. Parent nights for programs like MESA, AVID or LIA would need to follow the guidelines of #2.

Assemblies:

1. Masks are required at all activities and must be worn properly at all times.
2. Your plan should include mitigation procedures listed in the COVID School Guidelines.
3. The venue must allow for social distancing and a maximum of 25% capacity.
4. Entrance and exit logistics must be planned to minimize students gathering and allow for social distancing.

Guiding Documents:
The state COVID-19 School Manual and COVID-19 Business Manual (found online at: coronavirus.utah.gov) were used to guide safety procedural decision making.
