

Article X.A.2.            Selection of Musical Scores and/or Theatrical Scripts for Presentation in Secondary Schools

A.     Statement of Purpose

The Board supports the concept that secondary students in the District are entitled to perform and experience musicals and theatrical productions. The Board recognizes that class and school productions are an extension of the state core curriculum as well as national standards, and enhance students' understanding and interpretation of the world around them. This policy is intended to assure that age-appropriate material is performed and/or produced in District schools.

B.     Statement of Policy

1.     Selection of musical and theatrical productions shall primarily be a local decision made at the school level. Teachers and administrators shall collaborate in selecting appropriate production recommendations. Principals shall retain final discretion regarding recommendations.
2.     Teachers and administrators should seek feedback on recommendations from school community councils and allow for review of musical scores and/or the theatrical scripts.
3.     Thereafter, principals shall present the score of the musical and/or the script to a designated member of the superintendency for final review and approval at least thirty days before any work begins on the production.
