

Article VIII.A.13. Fireworks Used in the Schools

A. Guidelines

Fireworks displays are allowed at schools subject to the following guidelines:

1. All required permits have been obtained and all other legal requirements met.
2. Fireworks or pyrotechnics be handled by a qualified contractor who is required to carry general liability insurance covering work done for the school and on which the school is added as an insured to at least \$1,000,000 per occurrence combined single limit. These limits will include bodily injury or property damage for a minimum \$1,000,000 for any one occurrence, and coverage is then only for excess.
