

Article VIII.A.30. Medical Recommendations by School Personnel to Parents

A. Statement of Policy

The Board of Education recognizes the great influence school personnel have with parents. Pursuant to State Board of Education Rule 277-611, the following guidelines are implemented.

1. Subject to the provisions of the Family Educational Rights and Privacy Act (See administrative memoranda 45 and 45A), school personnel may provide information and observations to parents or guardians about their children such as the student's progress, health and wellness, social interactions and behavior.
2. School personnel shall not require that a student take or continue to take a specific medication as a condition for attending school.
3. School personnel shall not recommend a single specific health care professional or provider but may provide to a parent or guardian a list of two or more health care professionals or providers.
4. School personnel shall be trained regarding the provisions of this section.
5. Violations of this section constitute Improper Conduct.
