Secondary 1 CCSS Vocabulary Word List

Revised 6/27/12

absolute value equation
absolute value inequality
angle
area
arithmetic sequence
ASA (angle-side-angle)
association
asymptote
average rate of change
bisect
bivariate data
boundary line
box plot
categorical (qualitative) data
causation
center (measure of center)
circle
circular arc
cluster
coefficient
compositon of functions
compound inequality
conditional relative fequency
congruent
consistent system
constant percent rate
constant rate of change
constant term
continuous line or curve
coordinates
correlation coefficient
corresponding side
dependent system
discrete
distance formula
domain
dot plot

Secondary 1 CCSS Vocabulary Word List

elimination (system of equations)
end behavior
equal differences
equal factors
equation
equilateral triangle
even function
exponential equation
explicit formula
exponential function
exponential regression model
expression
extrapolate
factor
function
function notation
gap
geometric sequence
half-plane
histogram
horizontal intercept
horizontal translation
inconsistent system
increasing exponentially
increasing linearly
independent system
inequality
infintely many solutions
input
interpolate
interquartile range
intersection
interval
interval notation
joint frequency
laws of exponents
line

line of best fit
line segment
linear equation
linear function
linear regression model
marginal frequency
mean
median
numerical (quantitative) data
odd function
outlier
output
parallel lines
parallelogram
parameter
perimeter
perpendicular bisect of a segment
perpendicular lines
point
polygon
Pythagorean Theorem
quartile
range (statistics)
range
rate of change
rectangle
recursive
reflection
regression equation
regular hexagon in a circle
regular polygon
residuals
rigid motion
rotation
SAS (side-angle-side)
scatter plot
segment (line)

Secondary 1 CCSS Vocabulary Word List

set builder notation
shape (statistics)
simultaneous equations
slope
slope formula
solution
solution area (shaded region)
solution point
spread
square
SSS (side-side-side)
standard deviation
statistical variability
substitution (system of equations)
system of equations (functions)
system of linear inequalities
table of values
term
transformation
translation
trapezoid
trend
triangle
two-way frequency table
vertical intercept
vertical translation
x-intercept
y-intercept
